Profile

Results-driven software developer with over 7 years of experience specializing in iOS development with **Swift**. Known for strong problem-solving abilities and meticulous attention to detail, I excel at collaborating with cross-functional teams to deliver high-quality solutions.

While proficient in iOS development, I'm deeply motivated about transitioning to back-end development, particularly with **Golang**. Eager to leverage my extensive software development experience, I'm committed to continuous learning and staying updated with industry trends. Seeking opportunities to apply my expertise in backend development with Golang, I look forward to contributing to innovative projects.
