

# Cristhian Leon

## Senior Mobile Engineer

✉ cris.leonardoleon@gmail.com 📍 Uruguay

### 👤 Profile

Results-driven iOS Engineer with 8+ years of experience designing, building, and launching high-quality mobile applications. Proficient in **Swift**, modern architectures such as MVVM, or TCA, and frameworks like **UIKit**, **SwiftUI**, and **Combine**. Known for strong problem-solving abilities and meticulous attention to detail, I excel at collaborating with cross-functional teams to deliver solutions that enhance the end-user experience. Constantly exploring new technologies and methodologies, I strive for continuous improvement to elevate the development standards on every project, expanding my expertise across mobile platforms, with a strong interest in Android development and cross-platform mobile architecture.

### 🎓 Education

#### Systems Engineering

Universidad Francisco de Paula Santander

Cucuta, Colombia

### 🗣 Languages

English (Proficient) | Spanish (Native)

### 🔧 Tools & Frameworks

Swift	SwiftUI	Combine	Async / Await	SPM / Cocoapods	Fastlane	GraphQL		
MVC	MVP	MVVM-C	VIPER	TDD	SOLID	XCTest	SwiftTest	OOP

### 💡 Other Skills

Git / GitHub	Clean Code	API Rest	Crashlytics	Bitrise / CircleCI	Instruments
CoreData / SwiftData	SCRUM / Kanban	JIRA	APNS	Figma	i18n / l10n

## Work Experience

### DEPT

*Senior iOS Developer*

- Refactored legacy UIKit views into modern SwiftUI components.
- Streamlined automation testing workflow, reducing friction in CI/CD pipelines.
- Improved test structure and readability by adopting SwiftTest.

**Stack:** SwiftUI, SwiftTest, Combine, UIKit.

Oct 2023 – present  
Montevideo, Uruguay

### Gorilla Logic

*Senior iOS Developer*

- Implemented the MVVM-C pattern in the application.
- Increased performance by 15% by optimizing CoreData management.
- Implemented PCI compliant credit card feature using TokenEx.

**Stack:** CoreData, Combine, Async/Await, UIKit

Oct 2022 – Oct 2023  
Medellin, Colombia

### Airtm Inc.

*Senior iOS Developer*

- Co-created the application from scratch, establishing a solid foundation.
- Enhanced Android team's GraphQL usage for faster and lighter requests.
- Developed a modular application using SPM, separating business logic from UI.

**Stack:** SwiftUI, Combine, GraphQL, Fastlane, SPM.

Jan 2022 – Oct 2022  
Mexico City, Mexico

### Florio GmbH

*Senior iOS Developer*

- Led the team to implement features including multi-tenancy.
- Maintained Apple Watch and Siri extension.
- Recreated sophisticated UI making use of UIKit and CoreGraphics.

**Stack:** UIKit, UITest, HealthKit, Fastlane.

Jul 2020 – Dec 2021  
Munich, Germany

### Wunder Mobility

*Senior iOS Developer*

- Created a UIKit library to render customer brand colors and styles.
- Increased test coverage by 20% in the main product app.
- Reduced building times by 15% by adding cleaning Python scripts.

**Stack:** RxSwift, GraphQL, Realm, Firebase.

Feb 2019 – Jun 2020  
Hamburg, Germany

### Globant

*iOS Developer*

- Increased test coverage by 60% of multiple app modules.
- Refactored legacy code from Objective-C to Swift.
- Improved test monitoring by including SonarQube.

**Stack:** Swift, Obj-C, XCTest, CoreAnimation.

Apr 2018 – Oct 2018  
Bogota, Colombia
